

Press release

Constellium and UACJ to expand their Joint Venture to establish a leadership position in the growing North American Body-in-White market

Amsterdam - March 10, 2016 - Constellium N.V. (NYSE and Euronext: CSTM) today announced the signing of a Memorandum of Understanding (MoU) with its Japanese partner UACJ Corporation (UACJ) to expand their existing joint venture to produce automotive Body-in-White (BiW) sheet in the U.S. The final contract is subject to the board approval of each party.

By joining forces, the joint venture will become a leading player in the North American BiW market, combining strengths in technology, know-how and customer relationships. Under the expanded joint venture, Constellium and UACJ contemplate a joint investment in two previously announced 100 kt finishing lines, which would be funded 51% by Constellium and 49% by Tri-Arrows Aluminium Holdings, a U.S. affiliate of UACJ. Location of the finishing lines is still to be decided.

This agreement to share investments in the finishing lines with UACJ enables Constellium to reduce its estimated capital requirement to fund its total BiW investments in the U.S. to approximately \$340 million - compared to the \$620 million previously announced in October 2015.

"We are delighted to strengthen our successful partnership with UACJ" stated Pierre Vareille, CEO of Constellium. "We are fully committed to our BiW strategy and well placed to execute it. This agreement supports our strategic objective of expanding Constellium's BiW industrial footprint in North America to serve our automotive customers while reducing the capital needed for this project. This partnership positions the joint venture as a leader in the fast expanding North American market".

The Constellium and UACJ joint venture has already invested in a first finishing line located in Bowling Green, Kentucky, which is expected to begin pre-qualification production mid-2016 and ramp-up in 2017 as planned.

Constellium does not intend to make any further comments until its Q4 & FY 2015 Earnings call scheduled for March 15, 2016.

About Constellium

Constellium (NYSE and Euronext: CSTM) is a global sector leader that develops innovative, value added aluminium products for a broad scope of markets and applications, including aerospace, automotive and packaging. Constellium generated €3.7 billion of revenue in 2014. www.constellium.com

About UACJ

UACJ was established in October 2013 when Furukawa-Sky Aluminum and Sumitomo Light Metal Industries integrated their business operations. Both companies featured a distinguished history as aluminium producers in Japan. Together, their annual capacity for rolled sheet products exceeded 1 million tons. www.uacj.co.jp

About Tri-Arrows Aluminum Inc. (TAA)

Tri-Arrows Aluminum, Inc. is a 100% owned subsidiary of TAAH, which is a consortium owned 75% by UACJ, 20% by Sumitomo Corporation and 5% by Itochu / Itochu Metals.

Forward Looking Statement

Certain statements contained in this press release may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. This press release may contain “forward looking statements” with respect to our business, results of operations and financial condition, and our expectations or beliefs concerning future events and conditions. You can identify forward-looking statements because they contain words such as, but not limited to, “believes,” “expects,” “may,” “should,” “approximately,” “anticipates,” “estimates,” “intends,” “plans,” “targets,” “likely,” “will,” “would,” “could” and similar expressions (or the negative of these terminologies or expressions). All forward-looking statements involve risks and uncertainties. Many risks and uncertainties are inherent in our industry and markets. Others are more specific to our business and operations. These risks and uncertainties include, but are not limited to, the ability of Constellium and Wise to achieve expected synergies and the timing thereof; the risk that the businesses will not be integrated successfully or such integration may be more difficult, time-consuming or costly than expected; Constellium’s increased levels of indebtedness as a result of the acquisition of Wise Metals, which could limit Constellium’s operating flexibility and opportunities; the potential failure to retain key employees as a result of the acquisition of Wise Metals or during the integration of the business, the loss of customers, suppliers and other business relationships as a result of the acquisition of Wise Metals; disruptions to business operations resulting from the acquisition of Wise Metals; slower or lower than expected growth in the North American market for Body-in-White aluminium rolled products and other risk factors set forth under the heading “Risk Factors” in our Annual Report on Form 20-F, and as described from time to time in subsequent reports filed with the U.S. Securities and Exchange Commission. The occurrence of the events described and the achievement of the expected results depend on many events, some or all of which are not predictable or within our control. Consequently, actual results may differ materially from the forward-looking statements contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as required by law.
