Constellium ranked among the top 100 global automotive suppliers by Automotive News

July 8, 2020 – Constellium is proud to be included in the [Automotive News annual list](#) of the industry's top suppliers for the second year in a row, reaching #92 worldwide and #83 in North America.

Aluminium is a preferred material of carmakers, and Constellium supplies the automotive market with a [unique portfolio](#) of advanced aluminium rolled products and extrusion-based structural components. Our solutions, designed in partnership with our customers, respond to their needs for lightweighting, strength, formability, crash performance, thermal management and design.

“Being featured in the Automotive News list of top suppliers is a true testament to Constellium’s unique positioning in the market,” stated Craig Lewis, Sales and Marketing Director for Constellium’s Automotive Rolled Products in North America. “Our growth last year, including the ramp up of our Auto Body Sheet business in [Bowling Green](#), as well as new Automotive Structures programs for the [Mercedes-Benz A-Class](#) and [BMW X-Series](#) vehicles, helped advance our ranking.”

This year’s list was released by Automotive News, the pre-eminent publication covering the auto industry, and tracks sales from the previous year.

Constellium is a leading full-service supplier of rolled and extruded aluminium solutions for the global automotive market. We help engineer lighter, stronger and safer vehicles to deliver higher performance, lower emissions, better fuel economy and greater range. With a [product offer](#) that includes solutions for closures, structural components, Crash Management Systems, battery enclosures, decorative parts and heat exchangers, Constellium aluminium enables advanced mobility. One in four vehicles produced in Europe and North America in 2019 features aluminium from Constellium.
