## **Constellium showcases its aluminium solutions portfolio at SOLUTRANS 2013 tradeshow**

**Paris, November 19, 2013** – Constellium N.V. (NYSE and NYSE Euronext: CSTM) is exhibiting for the first time its broad portfolio of aluminium solutions at SOLUTRANS 2013, the professional tradeshow for haulage and urban transport held in Lyon, France, November 19-23, 2013.

Constellium supplies high-tech products for a large variety of applications for commercial vehicle structures such as truck trailers, refrigerated trucks, tankers and dump-bodies. Its aluminium-based offerings can be customized for each type of application, resulting in truck durability and robustness, as well as fuel economy and lower CO<sub>2</sub> emissions due to aluminium's lightweight properties. Thus, depending on the exact application, specific properties can be offered, from brightness finishes, wear resistance, clean ability and better grip.

Constellium's participation in Europe's largest truck trade show illustrates the Company's position as a partner of many leading commercial vehicle manufacturers. *"We are committed to serving the commercial vehicle market and SOLUTRANS 2013 is a great opportunity for us to showcase our unique range of products and our latest developments. We will also demonstrate our know-how and position as a key supplier of high-performance alloys,"* said Renato Sestak, Constellium's Aerospace and Transportation Sales Director for EMEA.

Our dedicated commercial transportation teams will be available to discuss Constellium's advanced materials solutions in stand L4-154.
